VERSATILE.
STYLISH.
RECYCLED.

With the Archal chair and table series, Johannes and Peter want to challenge the existing Lammhults collection with a chair made using recycled aluminium and a brand new technique, since Lammhults historically mostly has worked with furniture of steel tubing. Versatile chair series Archal offers refined and stylish design suiting many different settings.

LAMMHULTS

A large, white industrial robotic arm is shown in a factory setting, positioned above a conveyor belt. The arm is complex, with various cables and mechanical components visible. The background is slightly blurred, showing other industrial equipment.

Archal is the essence
of the knowledge
Lammhults has collected
in technology,
innovation and design.

A close-up, low-angle shot of a chair's leg. The leg is made of a light-colored, possibly aluminum, material and is attached to a dark, textured fabric seat. The background is plain white.
