DESCRIPTION

IT Il progetto Mixis Air nasce dalla collaborazione fra Crassevig e il designer Mario Ferrarini, per dare forma a un versatile concetto di seduta. La scocca in polipropilene può essere abbinata a diverse basi: con quattro gambe in legno o metallo, slitta in metallo, trespolo in legno, trespolo in alluminio con o senza ruote, cinque razze in alluminio con ruote. Disponibile in diversi colori, con o senza sedile imbottito, Mixis-Air si presta ad una molteplicità di spazi, utilizzi e abbinamenti, sia per interno che per l'outdoor.

EN Mixis Air derived from the collaboration between Crassevig and designer Mario Ferrarini to create a versatile seating concept. The shell is made of polypropylene with various base options including: wooden or metal legs, metal sled base, wooden trestle, aluminum trestle (with or without castors) and aluminum swivel base on castors. The collection is available in many colors as well as an upholstered seat option. Mixis Air is designed for contract use and is suited for many different applications and can be used in both indoor and outdoor spaces.

IT — MIXIS AIR R/4L Scocca in polipropilene, con sedile imbottito o tutta imbottita. Base a quattro gambe in acciaio altoresistenziale.
