

Press Release**Noise Reducing Table Top**

To meet up with the increased necessity to reduce noise levels in the work environment Lammhults has developed a noise reducing table top that is available for the Lammhults table series Funk, Quickly and Campus.

The patent-pending table top, is innovative in that the whole top, from edge to edge, consists of an environmental friendly noise reducing material that can be covered in high pressure laminate, veneer or linoleum, the choice of any environment.
