

PERMABLOK³®

ADVANCED VINYL PROTECTION

SPRADLING'S 3 IN 1 PROTECTION AGAINST GERMS, ABRASION AND STAINS

PERMABLOK³® from Spradling is a proven vinyl protective coating that's engineered to create a tough, effective barrier against the three biggest problems encountered in healthcare and hospitality environments – germs, abrasion, and stains. You can't see it or feel it, yet the protection it offers results in extended performance and lasting beauty with a minimum of care.

CARE AND CLEANING GUIDE

Get rid of stains with one of the following steps:	
step 1	eye shadow, mascara, grease, black felt tip pen, crayon, chocolate, and suntan lotion
step 2	red lipstick
step 3	blood, urine, feces, oil base paint, tar and asphalt
steps 4 & 5	all other tough stains

Spradling's 3 in 1 protection:
Antibacterial, Anti-stain and Anti-abrasion

Step 1: Remove excess spill with a damp cloth. Clean with a 1:1 mix of liquid dishsoap and water. Next, rinse with clean water and dry.

Step 2: Use a straight application of (solvent- and dye-free) concentrated cleaners. Wipe with a clean cloth, rinse with water, and dry.

Step 3: Use a 1:1 mix of ammonia and water, or a 1:4 mix of bleach and water. Rinse with clean water and dry.

Step 4: Use a straight application of naphtha (lighter fluid). Rinse thoroughly with clean water and pat surface dry.

Step 5: Use a 1:1 mix of isopropyl alcohol and water. If the stain persists, use straight alcohol. Always rinse thoroughly with clean water and pat dry.

Note: For cleaning that requires step 4 or 5, use a soft cotton cloth saturated with the cleaning material and rub the stain in circles 10 times. Pat dry with another soft cotton cloth and check the results.

The information published in this care guide refers to the performance of PermaBlok³® products in specific tests conducted under laboratory conditions. Results may vary under actual conditions.

This information is not a guarantee and does not relieve the user from the responsibility of the proper and safe use of the product and all cleaning agents. The use of certain agents can be harmful to the surface appearance and lifespan of vinyl. Spradling, its agents, and assigns assume no responsibility resulting from the use of such cleaning agents to the vinyl.

Certain clothing and accessory dyes (such as those used on denim jeans) may migrate to lighter colors. This phenomenon is increased by humidity and temperature and is irreversible. SPRADLING International GmbH and EURO SPRADLING S.L. will not assume responsibility for dye transfer caused by external contaminants and possible permanent staining caused by this phenomenon.
