 Section 4: Ignition Source 5 when
 tested with CMHR Foam.
 → French Classification: M1
 German Classification: DIN 53438
 Teil 2: Klasse K1 & DIN 4102-1981: B2

Durability

Resists stain penetration for unique, long-term protection never before possible. The superior stain resistance and improved wear properties help keep PreFixx[®] protected Spectrum Contract Vinyl looking new far longer than other vinyl upholstery.

Performance

State-of-the-art resistance to staining, abrasion, scuffing, burnishing and blocking demonstrated in repeated laboratory tests.

Protective Finish

Spectrum Colour Palette is coated with PreFixx[®] protective finish designed to be cleaned easily, over and over without showing signs of wear. With PreFixx[®] protection, it is possible to remove stains that could never be removed before. Now, with test-proven stain resistance and cleanability, plus superior abrasion resistance, PreFixx[®] protected Spectrum Contract Vinyl protects you from high maintenance costs and from frequent upholstery costs

Easy Maintenance

Common stains like dirt and smudges simply wipe off. More difficult stains like ballpoint ink can be cleaned with active solvents such as nail polish remover without damaging the PreFixx[®] finish, when following the recommended cleaning instructions.

SPECTRUM CONTRACT VINYL

**Recommended Cleaning Solutions
For Prefixx-coated Spectrum Contract Vinyls**

Staining Agent	Type of Cleaner
Spray Paint	1-2-3
Permanent Felt Tip Marker Pen	1-2-3

Grease	1-2
Crayons	1-2
Eye Shadow	1-2
Betadine	1
Coffee	1
Tea	1
Hair Oil Tonic	1
Blood	1
Urine	1
Grape Juice	1
Olive Oil	1
Motor Oil	1
Chocolate	1
Ketchup	1
Baby Oil	1

Day-to-day soil:- Remove ordinary dirt and smudges with a mild soap and warm water solution. Dry with a soft, lint-free cloth or towel. For more difficult stains, use of a stronger detergent is recommended, however, follow the detergent manufacturer's instructions closely. For special cleaning problems the following steps are recommended. Many difficult stains can be removed when these cleaning agents are used in the following order.

Step 1 cleaners:- Non abrasive household bleached based cleaners such as Jif, Mr Muscle or similar household cleaners and bleaches, to be used with a soft cloth or damp sponge, following the manufacturer's instructions.

Step 2 cleaners*:- Solvent-type cleaners such as Rubbing alcohol (isopropyl alcohol) or lighter fluid to be liberally applied with a soft cloth or damp sponge. Rinse cleaned area with fresh water and dry with clean cloth.

Step 3 cleaners:-** Strong, active solvent cleaners such as nail polish remover dissolved in 50% water (acetone/water) to be applied with soft cloth or damp sponge. Stain should be removed with less than six (6) rubs; if stain persists after six rubs, stain has set and it is unlikely that it can be removed. Rinse cleaned area with fresh water and dry with a clean cloth.

† **Note:** Although vinyls protected with Prefixx are resistant to most common stains, some fabric dyes have the ability to create a permanent stain. To minimise any problems from these and other stains, it is recommended that as soon as they are noticed all stains should be cleaned, making sure the recommended cleaning steps are followed in order.

* **CAUTION:** These solvents are highly flammable. Exercise proper care in cleaning. Wear Rubber gloves during all cleaning activity. Use caution cleaning around buttons, stitching and wooden or other decorative trim, since these solvents could seriously damage such areas.
