

hm107 Quiet Surfaces

Magnus Long's hm107 Quiet Surfaces collection of tables can be used with his hm106 Quiet Seating to form banquette and canteen seating, as well as being suitable for meeting rooms and office spaces. With their cantilevered ends and looping under frames, the collections beautifully mirror each other's proportions.

The 'quiet' design can create a discreet addition to a space, leaving a feeling of calm - reflected in the design's symmetry.

Available with three table top lengths and in two heights - a dining height and high-working/standing

Bespoke sizes and finishes are available, including raw, lacquered steel.

For more information, [click here](#).

Since studying furniture and product design at Nottingham Trent University and exhibiting his first designs at the Milan Salone in 2005, Magnus Long has rapidly gained recognition as one of London's most accomplished designers. Having co-founded the prolific and award-winning design collective Viable London, he formally established his own practice in 2012 to design furniture and products that are 'positive, understandable and relevant to their audience' for both contract and domestic markets. He is an associate lecturer at Central Saint Martins University.

product contents (based on hm107a)

Hitch Mylius have been making beautiful and contemporary upholstered furniture in north London for over 50 years.

Our key environmental benefits include:

- ✓ Many of our key suppliers are local to us – our sofa frames and metalwork suppliers are 12 miles from our factory.
- ✓ We use water based glues.
- ✓ We use FSC certified timbers.
- ✓ It is our policy when dealing with waste to follow the waste hierarchy; prevent, reduce, reuse, recycle, recover.
- ✓ We are certified to BS EN ISO 14001:2015 and have been since October 2010.
