

hm20

design: Hitch Mylius

A practical, versatile range of bar and occasional tables. The seven top shapes are available in four standard finishes: oak or walnut veneer and grey or white laminate. Bases are finished in either polished chrome or matt silver epc and all combinations come in two alternative heights - 380 or 500mm.

There is also a 730mm high café table hm20i. The X-shaped hm20l is intended for use on its own or in combination with Nigel Coate's hm61 seating.
