

## hm213 Horizon

In a completely fresh approach to public-area seating, Stefan Schöning's hm213 beam-mounted system introduces a dynamic 'horizon' to his seating through the articulation of the height of the backrests. The product range comprises three- and four-seat beams, with or without arms, and an optional table. Beams can also be linked in back-to-back configurations, and can be floor-fixed. These elements combine to provide a versatile seating solution for waiting and rest areas in all retail, healthcare, educational and public sector environments.

The preformed plywood seats are available either with lacquered oak veneer finish, or fully upholstered in a wide choice of fabrics, vinyls and leathers. The armrests can be fitted with an optional upholstered pad for added comfort.

The hm213 system meets BS EN 16139 2013 Level 2 - suitable for severe contract use.

Born in Belgium in 1968, Stefan Schöning set up his own industrial design practice in 1994 having graduated in product design at the Henry van de Velde Institute, Antwerp. Following successful commissions with commercial clients in Europe and the US, in 2004 he won the prestigious contract to design and develop a new corporate identity for the Belgian Railways for which he won a Red Dot Design Award and the coveted IF Designer of the Year 2008. His public seating system hm213 is Schöning Studio's first collaboration with Hitch Mylius, launched in 2014.

lacquered oak veneered seats can be fitted with optional upholstered pads

hm213h 4-seat unit with arms

- **65% recycled content**
- **75% recyclable content**

### product contents (based on hm213d)

Hitch Mylius have been making beautiful and contemporary upholstered furniture in north London for over 50 years.

Our key environmental benefits include:

- ✓ Many of our key suppliers are local to us – our sofa frames and metalwork suppliers are 12 miles from our factory.
- ✓ We use water based glues.
- ✓ We use FSC certified timbers.
- ✓ It is our policy when dealing with waste to follow the waste hierarchy; prevent, reduce, reuse, recycle, recover.
- ✓ We are certified to BS EN ISO 14001:2015 and have been since October 2010.
