

hm53 Cuba

A collection of versatile benches and perch stools with soft edges and generous proportions.

Available in three different heights, the highest of the units can be used to perch on or as backrests when combined with the lower units; dividers complete the range. Scattered across an area or clustered together they are ideal for both public and private spaces.

The collection can be upholstered in a wide choice of fabrics and hides, and multi-tone upholstery is available.

Power and data modules can be integrated and bespoke sizes are available.
