

hm83 Star

An exciting concept for public seating, the hm83 Star bench can be used as a dramatic stand-alone feature or linked together to form molecular, geometric arrangements. Constructed in pre-formed plywood on a steel underframe with stainless steel legs, and upholstered in cmhr foams, hm83 Star is built to withstand severe contract use. The hm83c bench has an integral table.

Additional accessories are available to expand its versatility; a chrome bumper bar can be fitted to protect against damage from luggage and trolleys, while a metal underplate can be fitted to prevent concealment of terrorist devices. Power and data units can be installed in hm83 Star.

One of the most prolific and wide-ranging designers working in the British furniture industry today, Pengelly has developed products with many of the UK and Europe's leading contemporary furniture manufacturers. Born on Oxfordshire in 1967, by the age of fifteen he had become an award-winning cabinet maker. He studied at Rycotewood College and Kingston Polytechnic, graduating in 1988. After working with Conran Design Group and Habitat, Pengelly started his own design company in 1996.

His first collaboration with Hitch Mylius was hm83 in 2004, soon followed by hm85 and hm86. The hm87 cocoon chair was launched in 2012. A pragmatic approach to problem solving and his affinity with materials and processes have attracted briefs that have resulted in award-winning designs characterised by Pengelly's mix of understated design, engineering and innovation.

product contents (based on hm83a)

Hitch Mylius have been making beautiful and contemporary upholstered furniture in north London for over 50 years.

Our key environmental benefits include:

- ✓ Many of our key suppliers are local to us – our sofa frames and metalwork suppliers are 12 miles from our factory.
- ✓ We use water based glues.
- ✓ We use FSC certified timbers.
- ✓ It is our policy when dealing with waste to follow the waste hierarchy; prevent, reduce, reuse, recycle, recover.
- ✓ We are certified to BS EN ISO 14001:2015 and have been since October 2010.
