

hm86 Lucas

Simon Pengellys' hm86 Lucas armchair offers comfort with beautiful proportions combined with meticulous detail. Available in high- and low-back options, and as a low-back sofa, when united with its comprehensive base options, hm86 Lucas is the ideal chair for every interior.

The shell is moulded in high-density cmhr foam on a steel frame with sprung seat, and is upholstered with a soft polyester wrap. Base options include, at lounge height, solid oak legs, tubular steel legs (polished chrome or painted white/black), a self-centring swivel in polished chrome or matt grey and non-return swivel in polished aluminium or white/black powder coat. At dining/desk height, options include tubular steel legs, or wire steel skid, available in polished chrome or powder coated white or black.

All bases have alternative finish options; the oak base can be stained or painted, and the metal bases can be specified in any RAL colour, or in a selection of plating options including polished brass, bronze and black chrome.

The collection is available in a wide choice of fabrics and vinyl. Multi-tone upholstery is available - inside and outside panels can be upholstered in different fabric. When specified in leather the inside panels can be upholstered in supple leather, with outer panels in fabric.

We offer Fast Track options - 10 working day lead time - on the hm86d skid base armchair and hm86e wood base armchair.

One of the most prolific and wide-ranging designers working in the British furniture industry today, Pengelly has developed products with many of the UK and Europe's leading contemporary furniture manufacturers. Born on Oxfordshire in 1967, by the age of fifteen he had become an award-winning cabinet maker. He studied at Rycotewood College and Kingston Polytechnic, graduating in 1988. After working with Conran Design Group and Habitat, Pengelly started his own design company in 1996.

His first collaboration with Hitch Mylius was hm83 in 2004, soon followed by hm85 and hm86. The hm87 cocoon chair was launched in 2012. A pragmatic approach to problem solving and his affinity with materials and processes have attracted briefs that have resulted in award-winning designs characterised by Pengelly's mix of understated design, engineering and innovation.

product contents (based on hm86e)

Hitch Mylius have been making beautiful and contemporary upholstered furniture in north London for over 50 years.

Our key environmental benefits include:

- ✓ Many of our key suppliers are local to us – our sofa frames and metalwork suppliers are 12 miles from our factory.
- ✓ We use water based glues.
- ✓ We use FSC certified timbers.
- ✓ It is our policy when dealing with waste to follow the waste hierarchy; prevent, reduce, reuse, recycle, recover.
- ✓ We are certified to BS EN ISO 14001:2015 and have been since October 2010.
