

## hm87 Cocoon

A development of his versatile hm86 chair, Simon Pengelly's hm87 Cocoon recognises the requirement for privacy within public spaces with the introduction of a sheltering cocoon.

Sharing the hm86 shell and bases, the two ranges can be combined to offer continuity as well as fulfilling the varied needs of reception, office and breakout spaces and transport lounges. Panels can be upholstered in combinations of fabric, vinyl and supple leather providing creative coordinating or contrasting solutions.

The chair shell is moulded in high-density cmhr polyurethane foam on a steel frame with sprung seat, with the cocoon in formed FSC-sourced plywood. The chair can be supplied with a self-centering swivel base in matt grey or polished chrome finish, chrome plated tubular steel or lacquered solid oak legs.

For more information, [click here](#).

One of the most prolific and wide-ranging designers working in the British furniture industry today, Pengelly has developed products with many of the UK and Europe's leading contemporary furniture manufacturers. Born on Oxfordshire in 1967, by the age of fifteen he had become an award-winning cabinet maker. He studied at Rycotewood College and Kingston Polytechnic, graduating in 1988. After working with Conran Design Group and Habitat, Pengelly started his own design company in 1996.

His first collaboration with Hitch Mylius was hm83 in 2004, soon followed by hm85 and hm86. The hm87 cocoon chair was launched in 2012. A pragmatic approach to problem solving and his affinity with materials and processes have attracted briefs that have resulted in award-winning designs characterised by Pengelly's mix of understated design, engineering and innovation.

- **45% recycled content**
- **70% recyclable content**

### product contents (based on hm87a)

Hitch Mylius have been making beautiful and contemporary upholstered furniture in north London for over 50 years.

Our key environmental benefits include:

- ✓ Many of our key suppliers are local to us – our sofa frames and metalwork suppliers are 12 miles from our factory.
- ✓ We use water based glues.
- ✓ We use FSC certified timbers.
- ✓ It is our policy when dealing with waste to follow the waste hierarchy; prevent, reduce, reuse, recycle, recover.
- ✓ We are certified to BS EN ISO 14001:2015 and have been since October 2010.
