The refined proportions of Chipperfield's modular hm93 design with its distinctive inset backrest positions, combine a dynamic and well-defined aesthetic with a high level of comfort. The range comprises one, two and three seat units, together with left- and right-handed chaise-longues and daybeds to allow the configuration of corner arrangements. The collection includes a generously proportioned double-fronted seating unit with the option of either straight or staggered backs, and a low coffee table.
